

Wooden Planter Range

About Us

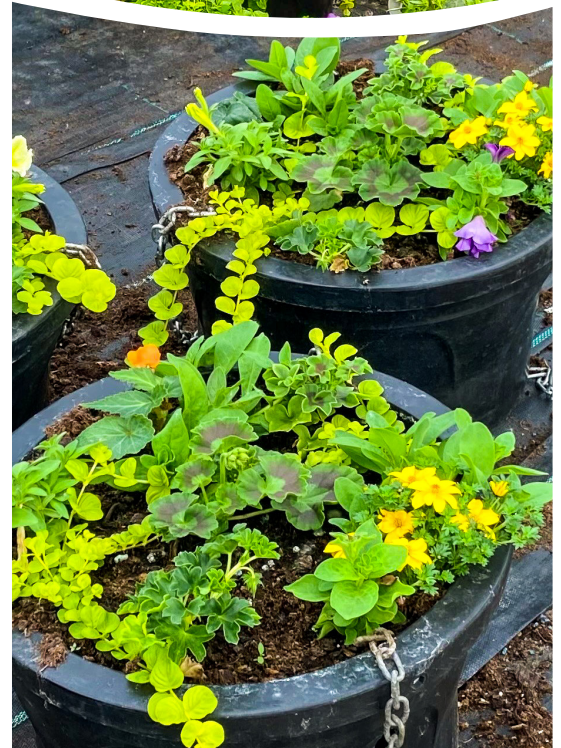

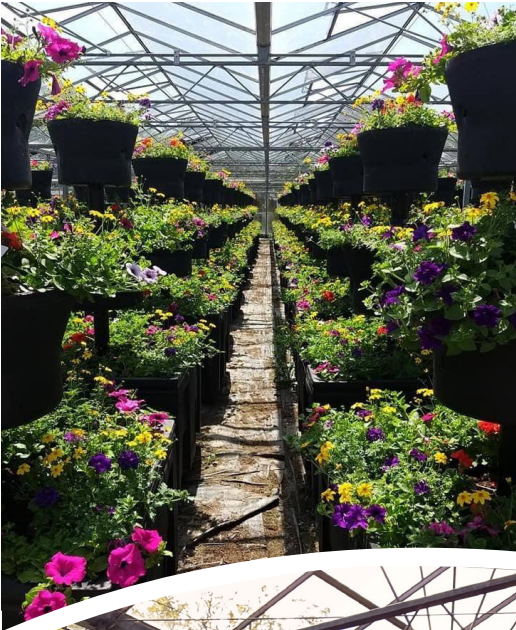

As the UK's largest supplier of hanging baskets and floral displays, we pride ourselves on delivering quality, which is value for money, whilst maintaining a sensible approach to sustainability.

Plantscape's, Sustainable, 7-day, self-watering planters provide 'Perfect plants in public places', such as:

- City Centres, Towns and Parishes
- Civic Buildings, Office Receptions and Hospitals
- Sporting Venues and retail parks
- Supporting In Bloom Groups

Our 7-day sustainable planters can be provided in the following ways;

- On a rental basis, planted for the summer or winter season, where we will deliver or install and take them away at the end of the season.
- Purchase any of our range, which allows you to create your own display, whilst maintaining a sustainable approach.
- On request, we would also be happy to provide a quote for the watering of your summer products, whilst on display.
- If you require our all-year-round package, we also supply solar powered Christmas trees, that fit on to our lampposts brackets or onto your existing, hanging basket brackets.

Parklets

Plantscape's Wooden Parklets combine craftsmanship and practicality to create a perfect floral hub for public areas to boost community feel, create a central meeting point and improve the aesthetics of an area.

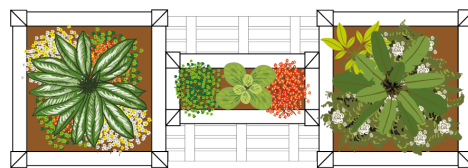

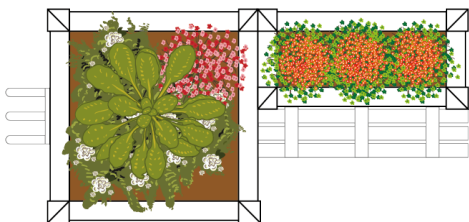

The Plantscape Parklet can be fully customised in design and layout to create a bespoke product to meet the specification needs for your site and can even have a combination of seating, wheelchair accessible spaces, recycling and waste storage and bike rack options for those who cycle to shops, businesses and the local area.

The Parklets have an integral water reservoir which means the plants can be watered once every 7 days; saving time, reducing the amount of water used and having a positive impact on the environment.

Parklets provide a range of benefits including reducing crime and anti-social behaviour, increasing footfall and improving air quality.

The Parklets are available in a range of sizes and configuration options.

Suggested Configurations

Benefits of our Parklets:

- Sustainably sourced wood.
- Powder Coated steel connecting pillars.
- Integral 7-day watering recyclable planters.
- Integrated recycling and waste storage.
- Fully customisable design and layout.
- Available in stained colour of choice.
- Interchangeable seat and bike rack configuration.
- Can be made accessible for wheelchair users.

Product Code: PPAR

Interlocking Planters

Plantscape's Interlocking Planters can be used for many different spaces. The planters are versatile and provide an alternative barrier solution to manage traffic, create low traffic neighbourhoods or isolate areas whilst brightening up the location.

The planters have an integral water reservoir which means the plants can be watered once every 7 days; saving time, reducing the amount of water used and having a positive impact on the environment.

Plantscape's planters are available ready planted with our award-winning displays, or they can be bought empty to allow for community-friendly planting projects.

Product Code: PP1P

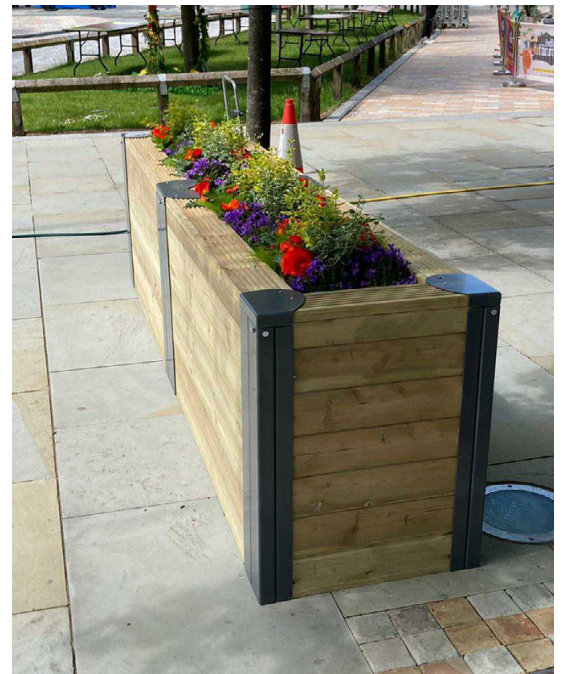

Benefits of our Interlocking Planters:

- Secure but can be moved should the need change.
- Finishings include Sustainably sourced wood, metal or recycled plastic timber.
- Easy to install.
- Can be used for traffic management.
- Customisable size options available.
- Available as a seating option.

Size of planters:

- 2m x 1m x 0.82m
- 1.4m x 0.45m x 0.82m

Pavement/ Café Planters

Plantscape's Pavement/Caf  Planter creates a natural-looking display that is both aesthetically appealing and practical. The planter is versatile and provides an alternative barrier solution to mark out boundaries or isolate areas whilst brightening up the area.

The planter has an integral water reservoir which means the plants can be watered once every 7 days; saving time, reducing the amount of water used and having a positive impact on the environment.

The planter is made from recyclable polyethylene. There are a range of finishes and options available.

The gap at the bottom of the planter allows access for the forks of a pump truck or forklift to enable the planter to be easily moved.

Product Code - Pavement Planter: PPVP1
Caf  Planter: PCPW

Product Code: PWPS

Box Clevers

Plantscape's Box Clever is a purpose made planter cladding system that simply fits over our square planters or window boxes, giving you the low maintenance benefits of polyethylene but the stunning appearance of metal or wood.

Available in sizes and finishes to suit your requirements, popular choices include brushed or polished stainless steel, powder coated mild steel and timber. Sleek and contemporary or traditional and sophisticated, rest assured we have a Box Clever to beautifully complement your environment.

DIBOND SURROUND WITH WOODEN CORNERS

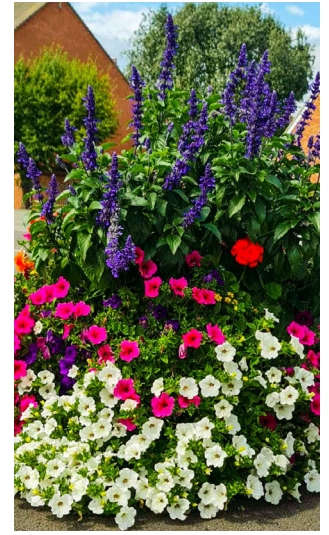

Our branded planter surrounds make a great addition to your floor-standing planter floral displays, allowing you to display messages to visitors, residents and buyers. Our dibond surround consists of two thin sheets of Aluminium enclosing a Polyethylene core.

Product Code: PBC1

Benefits of our Box Clevers:

- High quality graphics provide clear messaging to customers, visitors and clients.
- Lightweight product that is easy to install and update.
- Messaging is fully customisable, from brand logos and QR codes to more detailed designs and images.
- Available for use with our floor standing square and regular planter range.
- Dibond does not rust and can be used all year round.
- Helps add the finishing touches to your floral displays.
